

Foxwood Disc Golf Course - Flingsgiving Red

General Notes

All ball golf putting greens are OB (shortest grass only, not the "fringe" of the green).

All sand bunkers are played as hazards: play the disc as it lies with one penalty throw.

All ponds and creeks are OB unless otherwise specified below.

Perceived Foxwood property lines, as delineated by fencing, stakes or other markings, represent OB.

Gravel, dirt and asphalt paths are not OB unless otherwise specified below.

Where an OB border (e.g., an asphalt path that has been designated OB) ends arbitrarily, the OB is deemed to continue infinitely on a straight line in the last direction of the defined border.

All holes, "long grass" is designated OB unless specified. In such cases, "long grass" is any significant section of grass that is longer than the standard "rough" of the ball-golf course, regardless of whether there are multiple cut levels of such long grass. Wherever a lie is difficult to distinguish as OB due to ambiguous grass cut line, the group is to make best efforts to agree on a ruling, with any impasse to be resolved in favour of in bounds.

There are mandatory flight paths on select holes. For all mandatorys, in the absence of a painted/flagged line, the mandatory line is from the centre of the marked tree on a 90-degree angle from the tee.
