## San Diego Aces

The San Diego Aces is a not-for-profit organization responsible for course development and maintenance in San Diego. It is important for disc golfers that play our local courses regularly to join the Aces. Money collected by the club is used to cover required annual insurance costs for Brengle Terrace, Sunset, Montiel Park, Kit Carson Park, and Mast Park. Without this annual payment (of thousands of dollars), disc golf would not be in our public parks. Contact Allen Risley for how you can get involved in the club.

## So Cal Disc Golf Club

The So Cal Disc Golf Club is a not-for-profit organization responsible for managing and running tournaments in Southern California. By joining So Cal, you are part of an annual point series. Prizes are awarded each year to top finishers of each division. Contact Randy Wylot for how you can get involved in the club.
