

## The Don Shannon Disc Golf Course at Dundee Lake - Dundee 18 Alt Longs 2026

### Layout Details

Hole	Tee	Target	Par	Feet	Notes
1			3	310	Lake is OB. If disc is 100% surrounded by water it is OB.
2A			3	223	White OB line with Flags on entire backside of this hole. If disc is 100% surrounded by water it is OB. Please be careful of the players on the next tee pad.
3A			3	234	If disc is 100% surrounded by water it is OB. BE VERY CAREFUL ON THE SMALL GULLEYS AROUND THE BASKET, it's VERY SLIPPERY, go up and down on an angle and try holding on to something if possible.
4A			3	375	Cliff/river on FAR right is OB. It is clearly marked by flags. The PHYSICAL cliff edge is OB (if on edge take 1 meter safety relief). If you go into the deep creek, mark where it went OB and then come back and get your disc in between rounds, it's way to dangerous and time consuming to get it during the tournament even with a suction cup grabber.
5A		White	3	275	LONG LAYOUT PLAYS WHITE BASKET.
6	Longs		3	404	Throw from Longest tee, No OB, it is a good idea to have the last player stand by the short right tee pad on right and spot the disc where it lands. Due to it being a blind basket.
7			3	284	No OB, beware of going far wide right .... It's a big drop off down into a swampy wooded area. All water in swamp is Casual relief as far behind it as you deem necessary to make a shot.
8	Longs		4	500	Road long is OB, if disc comes to rest 100% on road then it is OB, mark where it went out and take 3 feet relief. Fence Long is OB. Kudzu on right side is VERY NASTY, please be careful.
9	Long		4	750	LONG BASKET, Road on left side and parking lot and beyond is OB
10			3	295	Top of restroom OB and inside Is also OB.
11			3	249	No OB, just be careful of very thick wooded area all right side.
12	Longs		3	408	Long tee is back against in the tree line. Be very careful of players finishing Hole 12 it's very hard to see them from the long tee pad.
13			3	307	No OB, beware of very thick woods short left and short right side.
14	Longs		4	566	No OB or Mando, beware of THICK woods on whole right side and left side.
15			3	240	Water is OB and it's left, right, and long so be careful.

Hole	Tee	Target	Par	Feet	Notes
16	Long		3	340	100% surrounded by water is OB, there is also an added physical OB line marked with Flags. If you throw and never re-establish in bounds on the other side by hitting land or a tree over land, then Drop Zone is Short Tee. And if you end up short in the very thick mud and your not surrounded by water but it's still too muddy to get to, then go back and get it in between rounds or when you're done. This is just a string for OB so if everyone on the card except the player (player vote no longer counts) thinks the dis. Is in then player is in Bounds also vice verse is true
17			3	314	
18			3	372	Surrounded by water 100% is OB. Pavilion is OB, must be 100% surrounded by concrete to be OB.
